

NISHANT RAJ SWAIN

Bhubaneswar, Odisha, India | +91-8658419778 | nishantrajswain@gmail.com | [linkedin.com/in/nishant-raj-swain](https://www.linkedin.com/in/nishant-raj-swain)

CAREER SUMMARY

Aspiring Data Analyst with strong expertise in Python, SQL, Statistics, Data Visualization, and Exploratory Data Analysis. Experienced in building end-to-end data analytics solutions, interactive dashboards, data cleaning, feature engineering, and deriving actionable insights from large datasets. Proficient in Pandas, NumPy, Scikit-learn, Tableau, Streamlit, and MySQL. Passionate about using data-driven approaches to solve business problems and improve operational efficiency.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C, JavaScript

Data Analysis: EDA, Data Cleaning, Wrangling, Feature Engineering, Statistical Analysis

Statistics: Hypothesis Testing, Probability Distributions, CLT, ANOVA, Descriptive Statistics

Machine Learning: Linear & Logistic Regression, Supervised Learning, Model Evaluation, Cross-Validation

Python Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Plotly, Statsmodels

Visualization: Tableau, Streamlit, Plotly

Databases: MySQL (Joins, Subqueries, Window Functions, CTEs, Query Optimization)

Tools: Git/GitHub, Jupyter Notebook, VS Code, Google Colab, MySQL Workbench, Excel

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration

EDUCATION

B.Tech - Computer Science and Technology, Trident Academy of Technology, Bhubaneswar 2023 - 2027
CGPA: 8.77

Class XII - Science (PCM), Saraswati Vidya Mandir, Cuttack 2021 - 2023
Percentage: 80.66%

Class X, Vivekananda Shiksha Kendra, Bhubaneswar 2020 - 2021
Percentage: 74.16%

PROJECTS

Flight Data SQL Analytics and Dashboard | Python, MySQL, Streamlit March 2024

- Designed 15+ advanced SQL queries using window functions, CTEs, joins, and subqueries on a large flight operations dataset.
- Developed an interactive Streamlit dashboard with 8+ KPIs and visualizations for delay and performance analytics, integrated with MySQL.
- Optimized queries through indexing, delivering route-level insights and trend visualizations.

EDA - Smartphone Market Analysis | Python, Pandas, Matplotlib, Seaborn August 2024

- Conducted end-to-end exploratory data analysis on 500+ smartphone models.
- Handled missing values, duplicates, and outliers; performed univariate, bivariate, and multivariate analysis.
- Generated insights on pricing trends and feature correlations through statistical analysis.

Movie Recommendation System | Python, Scikit-learn, Streamlit, TMDB API July 2025

- Built a content-based recommendation engine using NLP and cosine similarity on 4,800+ movies.
- Engineered features from genres, cast, crew, and keywords.
- Developed and deployed an interactive Streamlit web application for real-time recommendations.

INTERNSHIP EXPERIENCE

Data Analytics Intern | Vault of Code March 2026

- Performed exploratory data analysis (EDA) on Netflix content datasets containing 8,000+ titles using Python, Pandas, NumPy, Matplotlib, and Seaborn.
- Cleaned and preprocessed 8,000+ records by handling missing values, duplicates, and inconsistencies, enabling accurate trend analysis.

- Analyzed content trends across 30+ years of release data, genres, ratings, and countries to identify key patterns.
- Developed 10+ visualizations and analytical reports to communicate insights and support data-driven decision-making.

CERTIFICATIONS AND TRAINING

- Data Analytics Mentorship Program - JobaaJ, 2026
- Machine Learning Bootcamp - Let's Upgrade, 2024
- AI/ML Program for Geodata Analysis - ISRO, 2023
